EDUCATION

Georgia Institute of Technology	Master of Science, Computer Science	
University of Houston	Master of Science, Statistics and Data Science	2021
University of Houston	Bachelor of Science, Computer Science and Mathematics	2018

WORK EXPERIENCE

Digitas– Senior Data Scientist; Marketing/Advertising Aug 2025 - Present

- Spearheaded migration of audience segmentations from SAS/Adobe to Salesforce, automating ad campaign builds targeting 4M+ users and reducing launch time by 95%
- Designed A/B testing experiments to measure incremental lift of ad campaigns, identifying 11% increase in customer activity

Technologies Used: SQL, Snowflake, Jira, Salesforce DataCloud, Salesforce MarketingCloud, SAS, Teradata, LiveRamp, Claude

Toyota Financial Services

Data Scientist - Model Validation June 2023- July 2025

- Led enterprise model validation function - conducted and managed end-to-end assessments of core models to mitigate financial risk of \$1B+ in loan originations, collections, customer retention, asset valuation, accounting, and financial reporting
- Identified findings across multiple operations in data pipelines, code development, monitoring, and implementation resulting in process remediations and \$40M reduction in capital reserves
- Collaborated with 15+ teams to understand each model's business purpose and associated risks, presenting and producing validation reports to senior management and executives

Data Scientist - Revenue Optimization

Dec 2021 - June 2023

- Developed an XGBoost model predicting auto sales by segment with 85% accuracy, contributing to \$21M in revenue optimization
- Built a modular ETL pipeline and Python framework leveraging scripts to streamline model workflows (retraining, production score)

Technologies Used: Python, SAS, SQL, Snowflake, AWS Sagemaker, Athena, Redshift, Tableau, Git, Bash, Excel, Jira, Agile

LA Clippers – Business Intelligence/Data Analyst Intern - Product and Ticketing

June 2021 – Nov 2021

- Performed pricing analysis and introduced product strategy: first-come, first-serve fixed-cost section seating (The Wall at Intuit Dome); further supported the product using projections and confidence intervals, resulting in expected revenue increase by 6%.
- Analyzed ticket usage for season ticket holders, uncovering \$2.6M in unused seat revenue and proposed product concept to monetize underutilized inventory while enhancing fan experience.

Technologies Used: Python, R, SQL, Google Colab, Power BI, Tableau

HCSS – Software Developer

Jul 2019 – Aug 2020

- Designed and built custom reporting tools to export construction project data into Excel, streamlining workflows for 30+ clients and improving efficiency by up to 96% - directly leading to \$255K in revenue
- Owned end-to-end development lifecycle for custom product features through direct collaboration with client team

Technologies Used: C#, SQL, Visual DataFlex, XtraReports, Jira, Agile Scrum

Charles Schwab - SDET Engineer

Jan 2019 – July 2019

- Developed an automated testing process using C#, Selenium and SQL to 80% coverage- testing core product features in web page navigation, API calls, and data population
- Led 2 quality assurance teams through installation support and systems verification, project management, and demos to stakeholders.
- Scripted SQL queries and performed testing (smoke/regression) using Swagger and SPARTA for database and API validations

Technologies Used: SQL, Swagger, SPARTA, Jira/Bitbucket/Zephyr/Confluence, Agile Scrum

SKILLS

Languages: Python, SQL, R, Java, C++, C#, SAS, VDF

Libraries: NumPy, Pandas, Scikit-learn, XGBoost, LightGBM, TensorFlow, Keras, PyTorch, Matplotlib, Seaborn

Data Visualization: Tableau, Power BI, Matplotlib, Seaborn, Plotly

Data Science & ML: Linear/Logistic Regression, Random Forest, SVM, KNN, K-Means, Gradient Boosting, Neural Networks (CNN/RNN), NLP, Time Series Forecasting, Model Interpretability (SHAP, LIME)

Data Engineering & Processing: PySpark, Spark, Hadoop, Hive, Airflow, AWS (S3, Redshift, Lambda), Snowflake

Tools & Platforms: Git, Docker, Jupyter, VS Code, Postman, Agile/Scrum,

Additional Skills: Git, Excel, Selenium C#, Atlassian stack (Jira/Confluence/Zephyr), Xtra Reports, Claude Code
